Education

Sathyabama University

Bachelor of Science in Computer Science

Sep. 2020 – Aug 2024

Chennai, Tamil nadu

Experience

Venkys io

Software Engineer Intern

Jun 2024 – Sep 2024

Hyderabad, Telangana

- Contributed to multiple software development projects with a focus on high-quality and timely delivery.
- Collaborated with senior engineers in designing, developing, and debugging software applications.
- Assisted in code reviews, testing, and documentation to enhance overall code quality..
- Developed skills in managing project workflows, identifying bugs, and ensuring project consistency.

Projects

Chat App | React, Firebase, Sass, Redux, Google Auth

November 2023

- Developed a user-friendly chat application focusing on simplicity and real-time communication.
- Integrated Firebase authentication for smooth login and sign-in experiences.
- Leveraged Firebase's real-time database to support instant messaging among users.
- Designed a clean, intuitive interface to facilitate easy navigation and an engaging user experience.
- Implemented secure user sessions to ensure privacy and data protection.
- Optimized performance to handle multiple users chatting in real-time without lags.

NetFlix clone | Html Css Javascript

January 2022

- Developed a custom landing page closely resembling Netflix's interface.
- Designed a fully responsive layout to work seamlessly across various screen sizes and devices.
- Created a visually engaging interface with clean, minimal styling to mirror the Netflix look and feel.
- Emphasized user experience, crafting an intuitive, streamlined navigation.
- Focused on efficient, organized code structure to maintain flexibility and ease of updates.

Eat-n-split | React, Hooks, Sass

October 2023

- Designed a dynamic, interactive interface that simplifies bill splitting among friends.
- Focused on user experience, featuring clear input fields, helpful labels, and a single-click calculation option.
- Ensured efficient handling of calculations to maintain quick and accurate results.
- Developed a robust calculation logic to accurately divide expenses based on the bill amount and group size.
- Created an intuitive flow to guide users through the process seamlessly.

Skills

Frontend: Html, CSS, Javascript, Reactjs, Sass

Backend: Nodejs, Expressjs, JWT, Mongoose

Languages: Java

Developer Tools: VS Code, Github, Git, Postman

Devops: Docker, Kubernetes

Soft Skills: Team Work, Adaptability, Critical Thinking, Communication

Language: English, Hindi, Telugu

Training

AlgoXfusion

Aug 2022 – Oct 2022

React js

- * I completed the Frontend Reactjs program from AlgoXfusion which took 3 Months.
- * This Training provided me with comprehensive Knowledge in Frontend ReactJs.
